

ValanoIPC Unveils the Rugged Tablet IP67: Surviving Drops, Dust, and Water Like a Pro!

Dongguan , Guangdong -August 19,2025 – ValanoIPC, a global leader in industrial computing hardware, proudly introduces the **RT10 8-inch Rugged Tablet IP67**, designed to redefine reliability for professionals working in harsh environments. Combining military-grade durability, superior display technology, extended battery life, and seamless connectivity, the RT10 sets a new benchmark for rugged field computing.

Built to Endure the Toughest Conditions

The RT10 [Rugged Tablet IP67](#) is engineered to withstand the harshest operational scenarios. Its IP67-rated sealing ensures complete protection against dust and immersion in water, while compliance with MIL-STD-810H certifies resistance to drops from 1.22 m, extreme temperatures, and shock-related stress—making it ideal for manufacturing, logistics, outdoor operations, and field services.

Outstanding Sunlight-Readable Display

Featuring a bright 8-inch IPS display with an 800×1280 resolution and 700 nits brightness, the RT10 [Rugged Tablet IP67](#) delivers crisp visuals even under direct sunlight. The 10-point capacitive touch panel is responsive even when operated with gloves, and protected by scratch-resistant Gorilla Glass to ensure longevity.

Power That Lasts Through the Day

Equipped with an 8,500 mAh battery, the RT10 offers up to 9 hours of continuous operation—perfect for extended shifts without charging interruptions. Dual SIM capabilities and fast-charging support ensure seamless field connectivity and rapid recovery when power is available.

Precision Positioning Wherever You Roam

With integrated support for GPS, GLONASS, and BeiDou, the RT10 **Rugged Tablet IP67** delivers accurate ± 3 m positioning—perfect for logistics, navigation, asset tracking, and workforce management in challenging environments.

Extended Connectivity & Imaging Capabilities

Beyond cellular, Wi-Fi, and Bluetooth connectivity, the RT10 is equipped with a 13 MP rear camera and a 5 MP front camera for capturing high-resolution images and videos on the go. Optional accessories like QR/NFC scanners further enhance its utility in inventory management and industrial workflows.

Why ValanoIPC's Rugged Tablet IP67 Stands Out

In a crowded market, the RT10 distinguishes itself with an unmatched combination of high

brightness display (700 nits), all-day battery life, and robust protective features. According to ValanoIPC's comparisons, the RT10 surpasses industry averages across brightness, battery endurance, and scanning efficiency.

Tailored for diverse sectors that demand resilient technology—from manufacturing floors to outdoor field operations—ValanoIPC's RT10 [Rugged Tablet IP67](#) offers dependable performance exactly when and where it's needed most.

About ValanoIPC

[ValanoIPC](#) is a premier OEM/ODM manufacturer of industrial PCs, panel PCs, industrial monitors, rugged tablets, and network security appliances. With over 17 years in the industry, ValanoIPC maintains rigorous quality control (ISO 9001:2015, CE, RoHS) and invests heavily in R&D to deliver customized, robust solutions and 24/7 support—backed by a 3-year warranty and an exceptionally low defect rate.
