

# Why Your Next Automation Project Needs an Industrial PC with POE!

**ValanoIPC**, a leading innovator in industrial computing solutions, is proud to announce the release of its latest [Industrial PC with POE](#) — the **IC06-i3-5L**. Designed specifically to meet the rigorous demands of industrial automation, machine vision, and edge computing, this rugged system combines high performance, flexible connectivity, and simplified deployment — all within a fanless, compact form factor.

## Outstanding Features of the IC06-i3-5L Industrial PC with POE

ValanoIPC's new **Industrial PC with POE** is engineered to deliver reliable performance under harsh conditions while reducing deployment complexity. Key features include:

- **Five Intel® Gigabit Ethernet Ports (4 with PoE)**

The system supports **LAN1** for remote management and **LAN2–LAN5** for delivering up to **15 W PoE** to connected devices. This enables both data and power delivery over a single cable, eliminating the need for separate power wiring.

- **Fanless & Rugged Design**

Built with an aluminum alloy chassis and passive cooling, the IC06-i3-5L reliably operates in temperature ranges from **-10 °C to 60 °C** and humidity up to 90%.

- **Versatile Storage & Expansion**

The system supports M.2 NVMe/SATA, a 2.5" HDD slot, and an internal Mini-PCIe slot for AI or wireless modules.

## Why Choose an Industrial PC with POE?

Traditional industrial PCs often require separate cabling for power and data. ValanoIPC's new [Industrial PC with POE](#) simplifies installation and reduces clutter by consolidating power and network delivery. This design offers significant advantages:

- **Reduced cabling, lower cost & installation time**
- **Enhanced flexibility** in deploying sensors, IP cameras, and IoT edge devices
- **Simplified expansion and scaling** in smart factory and machine vision applications
- **Greater robustness** in industrial environments

## About ValanoIPC

[ValanoIPC](#) is a pioneer in rugged, fanless industrial computing solutions. With a focus on durability, performance, and flexibility, ValanoIPC serves global clients in factory automation, surveillance, transportation, and IoT.

A dark blue banner for Valano Technology. On the left, the company name 'VALANO TECHNOLOGY' is in large white letters, followed by a quote: 'Valano is a leading supplier of industrial pcs, panel pcs, rugged tablets, network security machines.' In the center, there are three contact options: a phone icon with the number '+86 13556025664', an email icon with 'marketing@valanoipc.com', and a globe icon with 'www.valanoipc.com'. On the right, there is a circular inset image of a woman in a white shirt and headset, pointing upwards with her right hand.
